How to Build a 300 Horsepower 318 Mopar | It Still Runs

The 318 and 360 engines are balanced differently, so you'll also need a new flywheel or flex plate and torque converter. Then there is fuel economy. Almost 12% smaller than the 360, the 318 should get about 12% better mileage, all else being equal. When it comes to building for power, the 318 is also a great choice.

Build a Hot Mopar 318 for Street or Strip - AxleAddict - A ...

If you are not drag racing (or street racing) and don't intend on spinning your 318 more than 4500 rpm, the stock 318 heads will work fine if they are in good shape. The small port 318 heads will give a better throttle response than the big port 340/360 heads. If you want bigger valves, you can put them in your 318 heads.

Projects - Which heads would be best for a performance 318 ...

Bookmark File PDF 318 Heads Manual Guide Performance heads (aluminum) use a large, flat spring seat, but cast-iron heads machine the seat into the cast iron with the outside diameter of the seat cutter, which leaves a recess in the head that the bottom of the spring must fit into. Magnum heads use a 1.42-inch seat diameter and A-engines use 1.50

318 Heads Manual Guide - mail.trempealeau.net

On a 318 you will have to consider the compression ratio. 360 chambers are usually at least 5cc's bigger than the 318 heads chambers were, and I'd have to say more like 7-8cc's bigger in the real world. So you won't just be able to slap them on unless you don't mind running 7:1 compression.

mopar help again...360 heads on a 318 | The H.A.M.B.

Interceptor heads are high compression heads, identical in every way to standard 318 heads of the era, but with a smidge tighter combustion chamber. Compression works out to high 9s to 1, as opposed to the standard 318 head at about 8.5 to 1. Interceptor heads also have slightly large valve aperatures.

Chrysler - Mopar LA V8 engines - head swpas

In this week's Mailbag, we're calculating compression ratios and cylinder head volume on a modified 318 Chrysler small block. Q: I am planning to rebuild a Chrysler 318 engine. I want to keep the compression to around 9.0:1, but I want to replace the stock heads with Edelbrock Performer RPM aluminum heads. The stock heads have 57.3cc ...

CHRYSLER 5.2L/318 Edelbrock Cylinder Heads - Free Shipping ...

In 1967, a 318 4-bbl was rated at about 230, that means that based on cylinder head design alone the LA basically lost about 30 horsepower. The predecessor to the later LA engines, the Poly was an A engine that had several displacements: 277, 301, 303, 313, 318, & 326 cubic inches, the more popular engine that you will hear about is the 318.
