Millions of people utilize SlideShare for research, sharing ideas, and learning about new technologies. SlideShare supports documents and PDF files, and all these are available for free download (after free registration).

Blood Type And Advanced Punnett

Community Answer. Since type O is recessive (hidden) and type B is dominant, the baby most likely has type B blood, unless the parent with type B blood also has an allele (form of a gene) for O blood (BO in the Punnett Square). If this is the case, there is the possibility that the baby has type O blood. Thanks!

How to Determine Your Baby's Blood Type Using a Punnett Square

The blood type inheritance makes a good example of a trait that is perfect to use in the Punnett square calculator. The height of a child cannot be predicted
