get through all my difficulties of studying Calculus. The text is confusing in some points of books but there are plenty of exercises available so you can practice your techniques. A must buy for anyone struggling with Calculus since its quite a mean topic, however its my favorite topic in Mathematics.

Spivak has also authored several well-known undergraduate textbooks. Among them, his text *Calculus* (W. A. Benjamin Inc., 1967; Publish or Perish, 4th ed., 2008) takes a rigorous and theoretical approach to introductory calculus and includes proofs of many theorems taken on faith in most other introductory textbooks.
