Clinical Voice Disorders

Access Free Clinical Voice Disorders

A voice disorder is present when an individual expresses concern about having an abnormal voice that does not meet daily needs—even if others do not perceive it as different or deviant (American Speech-Language-Hearing Association [ASHA], 1993; Colton & Casper, 1996; Stemple, Glaze, & Klaben, 2010; Verdolini & Ramig, 2001).
