social norms on this issue are changing. In this module, you'll learn more about what is considered deviant behavior and then examine how societies work to control and prevent deviance through methods of social control.

## **Why It Matters: Deviance, Crime, and Social Control ...**

The functionalist perspective, also called functionalism, is one of the major theoretical perspectives in sociology. It has its origins in the works of Emile Durkheim, who was especially interested in how social order is possible or how society remains relatively stable. As such, it is a theory that focuses on the macro-level of social structure, rather than the micro-level of everyday life.

Deviance provides the key to understanding the disruption and re-calibration of society that occurs over time. Some traits will be stigmatized and can potentially cause social disruption. However, as traits become more mainstream, society will gradually adjust to incorporate the formerly stigmatized traits.

The reason that I believe that is because many of the behaviors that were considered not deviant in the past are deviant today. For example, it was not deviant to own slaves, treat women as second class citizens, ostracize homosexuals, spank children for being disobedient or smoke at the train station.

## **What was deviant is not deviant now? | HubPages**

Words: 673 Length: 2 Pages Document Type: Essay Paper #: 80278875 (Gunkel, 2001, p. 8) It would seem, that the line that one oversteps to become deviant is the line that demonstrates the outsmarting of another to create chaos in ones system and potentially do real damage to materials and data.
