The ROOTS EasyAir8000 Factory Blower Package is a noise abatement enclosure containing a pre-assembled, skid-mounted blower unit. All piping, valves, and instrumentation are in place. It is produced for vacuum or pressure applications, enabling simple on-site installation.

Additional Dresser ROOTS Products

The Roots air blowers described in this manual represent both the basic type of Roots Anti-friction System (RAS) rotary lobe arrangement and the proprietary Roots RAS WHISPAIR design, with gear diameters ranging from 10 to 20 inches. All units are equipped with an effective splash oil lubrication system. The Roots RAS Blower

Installation Operation & Maintenance Manual

Since 1854, we have been continuously manufacturing and developing the rotary positive displacement blowers under the industry respected name Roots TM. Today, we produce robust, heavyduty bi-lobe or tri-lobe designs that deliver reliable performance with innovative Whispair™ technology for low noise, low pulsation compression.

Roots Blowers | Compressors | Howden

The time-proven Dresser meter is the preferred rotary positive displacement gas meter in distribution, transmission and production segments for accurate measurement from the well to the burner. Dresser ROOTS meters are suitable for use with most types of clean, dry, common gases at either constant or varying flow rates.

Dresser Meters & Instruments | Dresser NGS

Roots units covered in this manual, range in basic size from 10 inches through 20 inches gear diameter. From a usage or application standpoint there are two general types. Type RAS/RAS Whispair units are designated as air blowers, and may be used for handling air or some gases where leakage to atmosphere is not objectionable.
