Promoting healthier populations. The Sustainable Development Goals (SDGs) provides a bold and ambitious agenda for the future. WHO is committed to helping the world meet the SDGs by championing health across all the goals. WHO's core mission is to promote health, alongside keeping the world safe and serving the vulnerable.

### WHO | Promoting healthier populations

Population health assumes that healthcare organizations engage people beyond the shorter timeframes often seen in today's ACOs. Population health strategies will extend beyond the current episode-based framework of patient care.

### Population Health Management Solutions and Strategies

Yields (CivBE) Health and Unhealth represent the physical and social integrity of a colony. In many ways, it is similar to the Happiness/Unhappiness relationship from Civilization V: it is affected by most of the same factors (number of cities, population, etc.), and it provides positive or negative bonuses depending on the balance of the two. However, since there are no Golden Ages in ...
