Im looking at either getting a 94' 700  
(701) for \$800 one with the purple hull  
or a 95' 1100 \$900 one with the white  
hull. I have rode the 94' 700 and it runs  
good. It did overheat once though after  
about a hour of riding by myself then  
proceeded to pull a knee boarder for  
bout 20 minutes it overheated (revs  
were limited). The lake water was like 80  
degrees so im sure that had something  
to do ...

I have a 95 Yamaha wave venture 700  
that i bought a couple weeks ago. When  
I got it and put it in the water i noticed  
that it wasent running right. It would bog  
down if you gave nailed it, but if you  
rolled into the throttle it would go. I also  
noticed that it seemed to have poor  
acceleration and top end power.
